

Individual Articles

Simple and Safe Educational Experiments for Demonstration of Environmental Application of Heterogeneous Photocatalysis Process using the Example of Natural Fruit Juice Dye Degradation
 Hamed Eskandarloo ^a, Alireza Badiei ^a, Amir Rasoul Tavakoli ^a, Mohammad A. Behnajady ^b and Ghodsi Mohammadi Ziarani ^c
^a University of Tehran, Tehran, Iran
^b Islamic Azad University, Tabriz, Iran
^c Alzahra University, Tehran, Iran..... 111

Development of an Expert System for Materials Selection
 Kanika Prasad ¹, Shreyasi Mahanty ², Saikat Ranjan Maity ³ and Shankar Chakraborty ⁴
^{1, 2, 4} Jadavpur University, Kolkata, West Bengal, India
³ Haldia Institute of Technology, Haldia, East Midnapur, West Bengal, India 117

Materials Selection and the Stages of Design: Challenging the Convention
 R.H. Taylor
 Massachusetts Institute of Technology, Cambridge, Massachusetts, USA 139

Fluid Mechanics: Teaching and Learning Based on an Interactive Artificial Turbulence Generator Chamber with Adaptive Optics
 Antonio Jurado-Navas ^{a, b}, José María Garrido-Balsells ^a, Alberto Calleja ^c, Rosa Muñoz-Luna ^{d, b}, Miguel Castillo-Vázquez ^a and Antonio Puerta-Notario ^a
^a University of Málaga, Spain;
^b Isabel I International University, Burgos, Spain
^c Telefónica Spain
^d University of Málaga, Spain 145

Using X-ray Diffraction to Investigate the Crystal Structure of Materials Contained in Toothpastes: An Inquiry-Based Lab Activity
 José G. Carriazo and Manuel F. Molina
 Universidad Nacional de Colombia, Bogotá, Colombia 161

A Model for Teaching Elastic Frames
 Diego Misseroni, Davide Bigone and Francesco Dal Corso
 University of Trento, Italy 169

Thermoelectric Phenomena
 Witold Brostow ^a, Gregory Granowski ^a, Nathalie Hnatchuk ^a, Jeff Sharp ^b and John B. White ^{a, b}
^a University of North Texas, Denton, Texas, USA
^b Marlow Industries, Inc., Dallas, Texas, USA 175
